

SUMMARY

Computer Engineering graduate with hands-on experience in Product Management, UX/UI Design, and enterprise B2B SaaS products. Experienced in translating business requirements into product specifications, user stories, process flows, wireframes, and acceptance criteria while collaborating with cross-functional teams in Agile environments. Passionate about building user-centred digital products that solve real business problems.

WORK EXPERIENCE

Netbay Public Company Limited

Product Owner Intern (Cooperative Education)

August 2025 – April 2026

- Managed product backlogs and user stories for enterprise platforms, including document management, digital signature workflows, and e-Tax systems.
- Gathered business requirements and translated complex processes into feature backlogs, user flows, wireframes, and acceptance criteria.
- Coordinated with Business Development, UX/UI Designers, and Software Engineers throughout sprint planning, development, and UAT.

UX/UI Designer Intern

June 2025 – July 2025

- Analyzed user feedback and designed responsive dashboard interfaces for an enterprise B2B SaaS platform using Figma.
- Created user flows, wireframes, and high-fidelity prototypes for data visualization and workflow features while collaborating with Product Owners and developers.

PROJECTS

KINKORN — Meal Pre-Ordering Platform

October 2024 – April 2025

Product Lead & Developer

- Led product discovery and user research to identify pain points in university canteen ordering.
- Defined user personas, product requirements, and end-to-end workflows.
- Designed the UX/UI in Figma and co-developed the application using Django and Flutter.

ParkNhaiParkKorn — Smart Parking Reservation System

August 2020 – March 2021

Finalist, 23rd National Software Contest (NSC Thailand)

- Developed an IoT-enabled LINE Bot using Python, Firebase, M5StickC, and LINE Messaging API for real-time parking detection and reservations.

EDUCATION

Thammasat University

August 2022 – July 2026

Bachelor of Engineering in Computer Engineering

Srinakharinwirot University Prasarnmit Demonstration School (Secondary)

June 2019 – March 2022

Mathematics-Engineering Major

SKILLS

- **Product & UX:** Requirement Gathering, User Stories, Acceptance Criteria, Backlog Management, Process Mapping, User Flows, Wireframing, Prototyping, Agile/Scrum
- **Technical:** Python, SQL, REST APIs, HTML/CSS, JavaScript, Django, Flutter, Firebase, MySQL, Git/GitHub
- **Tools:** Figma, ClickUp, Trello, Miro, Docker, VS Code, Microsoft Office
- **Languages:** Thai (Native), English (Intermediate)

ACTIVITIES

Student Committee, Secretary at Thammasat School of Engineering

- Coordinated cross-departmental operations and managed official documentation for faculty-wide initiatives.

Project Chair, Three Universities Seminar

- Led event planning, budgeting, and coordination among Thammasat, Chulalongkorn, and Kasetsart University teams.

Master of Ceremonies, Recreation Club, Faculty of Engineering, Thammasat University

- Hosted more than 10 faculty events with audiences of over 200 participants.
